

To whom it may concern,

It is a pleasure to write this letter of recommendation for Andrew Garrett. I have known Andrew for the past three years. He was one of my students in my Honors Biology class. Throughout this period of time, he has exhibited a strong work ethic, positive attitude, and a genuine desire to do his best in all that he attempts.

Andrew is hardworking and continually challenges himself by enrolling in Honors Classes at Barren County High School. He has academic integrity and takes pride in his work. Andrew is always prepared for class and eager to learn new things. He excels in time management in completing projects and labs. He has the ability to collaborate successfully with any of his peers and takes on leadership roles when the opportunity arises. When obstacles in the lesson are present, he takes initiative to find solutions. It is without reservation that I endorse Andrew Garrett for any position he is willing to pursue.

Sincerely,

*Samantha Huffman*
